## DETAILED ACTION

### *Drawings*

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: "35". Also, in figs. 10 and 11, the element "32" in each drawing is being used to indicate two different areas of the device. The specification indicates that the numeral "32" is directed to a "free end". However, the areas indicated in the drawing do not appear to be a "free end" of the tab. It is noted that the numeral "35" in fig. 11 appears to be directed to the area described in the specification with respect to numeral "34". Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Objections***

2. The numbering of the claims is objected to under 37 CFR 1.75(f) insofar as the designation "[c1]", "[c2]", etc. are not standard Arabic numerals. The claims should be renumbered using standard 1, 2, 3 format.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 4, 5, 9 and 11 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by either Vanderlugt, Jr. or Arneson.

***Allowable Subject Matter***

5. Claims 2, 3 and 10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 6-8 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

***Conclusion***
